

WHY SKINNY FOLKS TAKE COD LIVER OIL

Gain 5 Pounds in 30 Days or Get
Your Money Back

Because it is richer in vitamins than any other food in the world. Doctors prescribe it for rickets and anaemia in children and for tuberculosis, malnutrition and convalescence in grown up people.

As a producer of weight—good healthy flesh—there is nothing in the world so good.

But it's nasty tasting, horrible smelling stuff that often upsets the stomach, so doctors now are ordering cod liver oil in tablet form.

You've got to take on weight when McCoy's Cod Liver Oil Compound Tablets are taken regularly—you simply can't help it.

It's so good that if it doesn't put on five pounds of good healthy flesh on any skinny man or woman in thirty days the McCoy Laboratories of New York authorize F. B. Johnson Co., and Pitman and Wilson and all druggists to return the price you paid for it.

Be sure to ask for McCoy's Cod Liver Oil Compound Tablets—sixty tablets—60 cents. One woman put on fifteen pounds in five weeks, and they are especially valuable to weak thin children.

OUR young lady is writing her social correspondence on Corona. Is this good etiquette? Lillian Eichler, author of the "Book of Etiquette," after telling how she wrote this famous book entirely with Corona, says: "My 'Book of Etiquette' encourages the use of the typewriter for social correspondence."

It is a breach of etiquette to allow letters to go unanswered for weeks, but a busy man or woman finds plenty of excuses for postponing the tiresome task. With Corona at your elbow, letter-writing acquires a new interest, and that is why many people of social prominence use Corona for all their correspondence. Coronatyping is easier, faster and more legible than handwriting.

Corona Four costs only \$60. Easy terms if desired. Call or phone for demonstration.

COLLECTIONS ABOVE \$200,000

Less Than Half of Spring Installment of Taxes Paid

Collections on the spring installment of taxes up to the time the county treasurer's office opened for business this morning amounted to \$210,692.89, Saturday's receipts at the office being \$11,365.19.

With only one week left for paying taxes without being delinquent, there remains approximately \$274,500 on the books to be paid. Collections will have to average almost \$40,000 a day, if the taxes are all paid.

The county treasurer, Howard Clawson, and Donald Mull, deputy, are being assisted this week by Miss Lucile Priest and Homer Cole.

I. & C. GRAVEL CARS JUMP TRACK

Accident in Morgan Street Near Station Delays Traffic

The rear trucks of a big gravel car and the front trucks of the one behind it jumped the tracks on the Indianapolis and Cincinnati traction line in North Morgan street about eleven o'clock this morning, at the point where the double tracks begin, near the traction station.

Three cars, each loaded with forty yards of gravel, were being pulled by a freight car, when the accident happened, and traffic on the line was held up while the cars were put back on the tracks.

Each car was loaded with 132,000 pounds of gravel and the immense weight, together with the weight of the heavy cars, caused the wheels to cut large grooves in the paved street.

TRAGIC SCENE AS JAPANESE FREIGHTER SINKS

In this photo, the greatest picture ever made of a sea tragedy, is shown, as seen from the decks of the S. S. Homerie, the last throes of the Japanese freighter, Raifuku Maru, as she was engulfed by the raging seas off Nova Scotia, carrying to the depths with her, her officers and crew. Passengers and crew of the Homerie lined the rails helplessly, the women with tears streaming down their cheeks, as they watched the doomed men on the sinking ship wave their arms in frantic appeal for the aid that could not be given.

GOOD ATTENDANCE, AT LOCAL CHURCHES

Continued from Page One

Well for quite a little while I have been giving to the spread of the gospel of Christ, and the money has been going out to work in these fields. No, the christian is never confined to his own community, his influence is indeed world-wide, and he is poor indeed if he fails to take advantage of being truly a citizen of the whole world. The privilege of being a christian is the privilege of reaching your highest possibilities. The challenge of it I bring to you anew this morning."

First United Presbyterian

The Rev. E. G. McKibben preached at both services, morning and evening, at the First United Presbyterian church Sunday. The text in the morning was Rev. 2:10, "Be thou faithful until death and I will give thee the crown of life." He said in part: "A single command to do one thing and a promise of recompense is the burden of this text. It is short so as to be easily remembered. It is clear so as to be understood readily. It is reasonable so as to require no argument. All Christian duties can be listed under the first part and all future rewards under the other. It is a challenge by the Lord to all christians and at all times.

"The thing required is faithfulness. The word means full of faith, characterized by faith, controlled by faith. Faithfulness always grows out of faith. Faith is a fountain and out of it issues a faithful life. Faith is soil out of which grows the strong oak and the graceful palm of a faithfulness. Faith is unbelief in God's word, and trust in His promises, and confidence in Jesus Christ and obedience. The resultant of all these forces is faithfulness. Faith and faithfulness are always joined together. Faithfulness implies resistance to Satan's allurements. Temptation, if it is real, always comes in an attractive form. Satan is disguised as an angel of light. The wolf dons sheeps' clothing. The serpent that tempted Eve was upright and wise and subtle above all the

beasts of the field. When Satan tempted Christ, he 'showed him all the kingdoms of the world and the glory of them.' 'All these,' said he, 'will I give thee if you will worship me.' This was the highest bid ever made for a soul and Our Lord resisted it. Faithfulness implies constancy. It is not big things, and the trials that test the mettle of the Christian soldier. It is the pretty annoyances and the little trials that dishearten and tempt us to lapse into unfaithfulness.

"Then he has set a limit to the period of faithfulness required. It is to be until death. Death is set as the limit of time and also of endurance. Faithful men may be called on to suffer loss for the faith of the gospel. They have forfeited their property and given up their liberty, and suffered bodily pain, and social ostracism, and exile rather than give up their faith. But the limit is death. Our Lord was obedient even to the death of the cross.

"The reward of faithfulness is a crown. 'I will give thee the crown of life.' This is not the crown of life. And the crown of life is not eternal life conferred a death. Eternal life is given at the time we enter the kingdom. 'I give unto them eternal life.' It is not enrollment among the saved. The Bible says that the name of God's saved ones 'are written in the Lamb's book of life before the foundation of the world.' It is not the gift of the Holy Spirit for He was given at Pentecost and is promised to all who obey Him. But the crown spoken of seems to the entrance into heaven, the welcome that awaits, access to the tree of life, enthronement along with Christ and all the joys and pleasures and ecstatic experiences and the fellowship with angels and saved men forever. This crown is to be given by God's Son, in the presence of all created, rational beings, on that day when time ends and eternity begins.

"Such a text as this ought to encourage enlistment in the Lord's service. All other programs will terminate in a brief space of time. This one is age long and eternity deep. Here is offered life which is life indeed and the crown of life at the end; It also offers compelling inducements to the Christian to be faithful. 'Be thou faithful unto death and I will give thee a crown of life.'

In the evening the sermon was based on John 3:14,15. 'As Moses lifted up the serpent in the wilderness, even so must the Son of Man be lifted up.' The brazen serpent placed on a pole in the camp was a type Christ lifted up on the cross on Calvary. The bitten Israelite was cured by looking on the serpent. Those bitten by sin are saved by the look of faith directed to the great antitype of the serpent, Jesus Christ pointed out.

SHEPHERD'S TRIAL IS SET FOR HEARING MAY 18

Defendant, Accompanied by Wife, Appears at Ease When he Appears in Court Today

DEFENSE WILL BE READY

(By United Press)

Chicago, April 27—Date of trial of William D. Shepherd on the charge that he murdered his wealthy ward, Billy McIntock was set today for May 18. Judge T. J. Lynch, in designating the date, told defense Attorney William Scott Stewart he would grant an extension of time if the defense needed it.

Stewart said he would be ready, but declared he felt it would be impossible to secure "a fair minded jury."

"I'll give you eight weeks to select your jury if necessary," Judge Lynch said. "There are a lot of people who don't read the papers."

Mrs. Julie Shepherd, wife of the prisoner, was in court for the first time since Shepherd's arrest. Shepherd appeared quite at ease.

EARTH TREMORS ARE NOTED HERE

graph in Indianapolis.

Scores of persons living in the north and east sections of the city felt their houses rocked by the tremor and called newspaper offices and police headquarters to learn if there had been a violent explosion in the state.

The intensity of the quake was apparently less in the south and west sections of Indianapolis.

In large apartment houses on the north side furniture was moved about by the quake and flower vases were toppled over.

Radio fans listening in on Sunday night programs reported a sudden interruption at the moment of the tremor.

Gavin Payne, who had been through earthquakes in Jamaica and Porto Rico, said the quake was an east to west movement of the earth that lasted a little less than half a minute.

Think of the Harvest—What-
soever a man soweth, that shall
he also reap. Galatians 6:7Prayer:—Dear Lord, we
thank thee for this truth. May
we sow seed that assures us a
good harvest.

Outdoor Good Manners

From the time they are able to
comprehend anything, children are
taught that they must have "good
manners." They are threatened and
warned and cajoled in behaving
when "company" comes and to act
like they weren't little savages when
they go to call on friends."Good manners" have always
been regarded as one of our "best
known" indoor sports. But this is
a changing world and now we find
that "manners" are classified. There
is the "indoor" variety and the
"outdoor" variety. And some of the
groupings are lacking in the "out-
door" quality.The careless automobile tourist,
who has left his mark from Harlem
to San Francisco, has made neces-
sary some new precepts on the
subject of "good manners."The thoughtless camper who for-
gets to put out his fire and leaves
behind paper plates, tin cans and
the remains of his lunch is the hor-
rible example of "bad manners"
and a type that must be swatted in
order to keep tourists as a class
in good standing.The American Automobile associa-
tion estimates that six million
people will heed the call of the road
this summer. If one-sixth of them
are careless, an immense amount of
damage will be done. Beauty spots
will be defiled, property destroyed
and the way made rough for tour-
ists who have good "outdoor man-
ners."Nothing is more disheartening
than to find some picturesque spot
among the trees left by automobile
travelers and picnickers littered with
refuse.The rights of property owners
in the country must be respected as
religiously as they are in town and
city. These children can be taught.
Some of their elders may be too
hard crusted to admit of teaching.But the coming generation, at
least, ought to grow up with the
idea that the abuse of outdoor hos-
pitality of parks and secluded spots
in the country is as much a breach
of good manners as to mistreat a
home where one has been enter-
tained.Don't Let That Cold

Rub on Good Old Musterole

That cold may turn into "Flu,"
Grippe or, even worse, Pneumonia,
unless you take care of it at once.Rub good old Musterole on the con-
gested parts and see how quickly it
brings relief.Colds are merely congestion. Mus-
terole, made from pure oil of mustard,
camphor, menthol and other simple
ingredients, is a counter-irritant which
stimulates circulation and helps break
up the cold.As effective as the messy old mustard
plaster, does the work without blister.
Just rub it on with your finger-tips.
You will feel a warm tingle as it enters
the pores, then a cooling sensation that
brings welcome relief.To Mothers: Musterole is also

Summer Recreation

What can we do with the children
during the vacation period? This is
a problem that confronts most par-
ents and a happy answer to it is
being sought.It's not so great in the country
because there is not so much danger
that children will get into mischief
on account of idleness. The farm
offers plenty of work, for strong
young muscles, and near to nature
as it is, the tasks are health pro-
moting, body building work.But in the town and city, anxious
parents are constantly seeking ways
and means of keeping the active
youngsters occupied. They are not
dumb driven cattle. They like to be
busy doing something, and if a meth-
od can be found to turn their en-
ergy into useful channels, they will
be benefited and the temptation to
fall into evil ways will be removed.With a scarcity of work for
young hands, the best substitute is
a playground center where a part of
the vacation time can be devoted to
organized play.Many communities have recog-
nized their responsibility and have
provided playgrounds, as well as a
director.A few years ago Rushville had a
playgrounds supervisor who kept
the boys and girls engaged a good
part to the time during the vacation.The program was not continued,
but it should have been. The play-
ground still remains in Memorial
park, and it is well equipped with
apparatus. Boys and girls will find
many hours of pleasure there this
summer after the chores at home
are done.But the point is, that the chores
should be done first, and then the
play can be entered into and en-
joyed with greater relish.

Stewart's Washington Letter

BY CHARLES P. STEWART

NEA Service Writer

WASHINGTON—Official Wash-
ington is pleased with Joseph
Caillaux's appointment
to be finance minister of France.That is to say, most of official
Washington is. That small part of official Wash-
ington which knows a good deal
about France says, "It makes little
difference to us who the finance
minister of France is." Caillaux
is recognized as one of the world's
great financiers. He favors some
definite French war debt arrange-ment. But an "arrangement"
won't mean that the debt will be
paid.The most it can possibly mean is
French recognition that there is a
debt. It will be just a "gesture,"
as diplomats say. Only super-
optimists think America really
will get even any of the interest.BESIDES, it's doubtful if Cal-
laux will last long enough to
make so much as an "ar-
rangement." He favors re-es-
tablishing France's foreign credit by
taxing her own people up to the
hilt. "That's the right remedy,"
approved Chairman Borah of the
Senate foreign relations com-
mittee, when Caillaux's appointment
was announced.Yes, but it's a remedy Dr. Cal-
laux can do no more than pre-
scribe. France will have to take it
for herself. Will she? "Tut, tut!"
say those who know France best.
"What a question!"IF the chamber of deputies in
Paris turns down the Caillaux
taxation plan, out of office he'll
go, and probably the whole cabi-
net with him. That this will be
pretty quick is one of the safest
of bets.The Hodge-Podge

again—tut, tut!HE was a young gob with a
naval squadron at Charleston
—a nice chap but only a kid.
Going through some old papers at

officer accidentally unearthed the
record of the court martial which
tried this youth some years ago.
Details weren't made public at the
time. Navy men were too sore.
At this late date they laugh.THE boy was tired of Charles-
ton. He longed for Broadway.
It so chanced that he was a
wireless operator—on the flagship.
So what did he get but a wireless
to the admiral to take his ship to
the Brooklyn navy yard forth-
with! Up anchor and away!In due season the admiral re-
ported snappily to the Brooklyn
navy yard commandant. "What 'n
hades you doin' here?" queried the
astonished commandant. "I got awireless to come," insisted the ad-
miral. "Th' hades you did!" ex-
claimed the commandant. "Git to
hades back where you belong."BUT they investigated first. It
didn't seem so funny then as
now that a whole squadron
of big warships had made an ex-
pensive voyage from Charleston to
New York, and then had to turn
right around and go back, just to
amuse one young gob. They cast
him out of the service and he was
lucky not to get a few years on

CLINKERS

Constipation is like the clinkers in a stove.

When the stove is choked with clinkers it gives only one-half the heat it can with fresh, clean coal.

For the same reason when your intestines are choked with waste matter, you are physically and mentally only one-half efficient.

Waste matter in the body that is not thrown off regularly, poisons the system and makes it doubly easy for you to contract disease and doubly hard for you to get rid of disease until the waste is removed.

Constipation tends to produce piles, appendicitis and many other ills.

That is why a physician—the very first thing—sees that you are cleaned out of waste matter when he is called to minister to your needs.

We have a wonderful laxative for chronic constipation—

VAST HARBOR PLANNED IN CALUMET DISTRICT

Gary City Council Grants Permission to Firm to Build Inlet Mile Long For Cement

TO BE LARGEST IN THE WORLD

Gary, Ind., April 27—Early construction of another industrial harbor within the city limits of Gary has been assured today following action of the city council in granting permission to the Universal Portland Cement company to build a harbor at its Buffington plant in the western part of the city at a cost of \$3,000,000.

Plans for the harbor came with an announcement that another cement mill would be added to make the Buffington plant the largest cement manufacturing plant in the world.

The harbor will be nearly one mile long and 300 feet wide with a depth sufficient to float the largest lake vessels. It will be used for vessels carrying limestone to the large cement plant and transporting the plant's products to the cities on the Great Lakes and eventually to all parts of the world.

"Something Just as Good"

A woman in New Mexico received the following letter from a Philadelphia firm: "Dear Madam: We are sorry to state that we cannot furnish Peppys Diary about which you inquired, but we have Line-a-Day books from \$2.50 to \$6 each. If you would like one of them, we will be glad to attend to your order as soon as it reaches here."

Carnivorous Plants

Animal-eating plants are more common than one would suppose, since there are five hundred species listed in botanics. These carnivorous plants trap their prey with their leaves and absorb the victims.

Strength

—brings joy to you and
your friends.

EVERY man, woman and child wants to have strength and correct weight. It means the joy of living. To be minus strength and underweight often proves low fighting-power in the body. It often means you are minus nerve-power, minus red cells in your blood, minus health, minus vitality. It is serious to be minus, but the moment you increase the number of your red-blood-cells, you begin to become plus. That's why S.S.S., since 1826, has meant to thousands of underweight men and women a plus in their strength. Your body fills to the point of power, your flesh becomes firmer, the age lines that come from thinness disappear. You look younger, firmer, happier, and you feel it, too, all over your body.

More red-blood-cells! S.S.S. aids Nature in building them by the million! There are no unproven theories about S.S.S., the scientific results of each of its purely vegetable medicinal ingredients are admitted by authorities. Begin taking S.S.S. today. It will give you more energy, vitality and vigor and a more up and going appearance.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

DIRIGIBLE SPIES ON RUM FLEET

Here is a picture taken as the giant dirigible Los Angeles went scouting for the "rum fleet" off the Jersey coast and in the vicinity of Fire Island. Pictures of the "fleet" were taken at the request of Secretary of Navy Wilbur, who said it would give the dirigible crew good scouting practice and that prohibition agents and coast guard might make use of the data in helping to snare wily rum-runners. The shadow in the picture is cast by the dirigible.

T. B. DEATH RATE SHOWS INCREASE

Immense Report is Made Following
Survey in State by National Tuberculosis Association

HIGHEST IN MARION COUNTY

Rate There is 107 For Each 100,000
Population and in Rush County it
is 89 Deaths

Indianapolis April 27—One of the most exhaustive reports ever made on a single subject in Indiana is contained in a survey recently completed for this state by Dr. H. R. Edwards, medical field secretary of the National Tuberculosis association.

The report, covering several hundred closely typewritten pages and illustrative charts was filed today with Dr. William F. King, secretary of the state board of health.

TONSILLITIS

VAPORUB
Over 17 Million Jars Used Yearly

The Indiana State Tuberculosis Association, sensing the need for an accurate and comprehensive study of the problem in the state in 1921 requested the national association to make the survey. The state board of health joined in the invitation.

Although the tuberculosis death rate during the past ten years covered by the survey was higher in other parts of the state the tuberculosis situation in Indianapolis and Marion county was more serious because of the larger population, the report stated.

The death rate exceeded 107 for every 100,000 population.

Many counties south of Marion had a death rate higher than 107 during the period but the only county north of Marion that had a higher death rate was St. Joseph.

Death rates in other counties were Lake county, 75; Porter, 41; Laporte, 78; St. Joseph, 115; Elkhart, 67; DeKalb, 73; Noble, 57; Allen, 89; Whitley, 52; Kosciusko, 56; Marshall, 63; Wabash, 58; Wells, 70; Adams, 67; Jay, 86; Blackford, 64; Clinton, 77; Delaware, 97; Wayne, 86; Henry, 98; Fayette, 113; Rush, 89; Boone, 106; Putman, 103; Montgomery, 83; Fountain, 79; Vermillion, 74; Vigo, 81; Clay, 86; Morgan, 104; Shelbyville, 115; Decatur, 119; Monroe, 104; Greene, 103; Sullivan, 87; Knox, 93; Daviess, 109; Gibson, 95; Vanderburgh, 142; and Fountain, 79.

Jefferson county with the rate of

189 had the highest and Benton with 34 had the lowest.

Considerable space in the report is devoted to conditions at the state tuberculosis sanitarium at Rockville and recommendations for betterments included.

Creation of a modern fireproof infirmary with seventy-five to one hundred beds.

Complete separation of the business and medical administrations.

Appointment of a business manager, Dr. Carter, president general superintendent being suggested.

Complete remodeling of plumbing and overhauling of adult pavilions. More help in the medical department.

The report made several recommendations to the state board in carrying out its health program:

Development of full-time city and county health departments; cooperation of the medical profession in reporting tuberculosis cases; formation of a tuberculosis division of the state board of health.

Some of the things recommended in the report have been accomplished and other resuppose an ideal state depending to a great extent on the action of the legislature. Dr. King said in commenting on the report.

ASKS DIVORCE AND \$25,000 ALIMONY

Sadie D. Allen Sues Albert L. Allen and Demands Restraining Order of Court

FEARS HE WILL MOLEST HER

Charges Husband is Stingy and Has High Temper—Charles Lake Also Seeks Divorce

A complaint for divorce, seeking \$25,000 alimony was filed this afternoon in the circuit court by Sadie D. Allen against Albert L. Allen, charging cruel treatment in her complaint, and also seeking a restraining order to prevent him from molesting her.

The couple resides at 120 West Eleventh street, according to the complaint, and the defendant is said to be worth \$60,000, including a farm, city residence and personal property.

The complaint alleges that they were married March 25, 1908 and separated today. In her complaint she charges her husband with being stingy, and that his mother criticized her in various manners and was also stingy.

The defendant is charged in the complaint with having a high temper that at times bordered on insanity and that in his alleged fits of rage, he was dangerous and threatened to do her harm. She asserts that she is living at the family residence, and desires to continue living there, and asks a restraining order to prevent him from molesting her.

In a further charge, she alleges that prior to her marriage she lived in Cincinnati, and was prominent in church work, and that Mr. Allen pretended to be a church worker here, but in recent years he has criticized her in her church work, and has prevented her from following her usual pursuits in such work.

Another complaint for divorce was filed today in which Charles Lake is plaintiff and Ella B. Ione Lake defendant, in which the plaintiff alleges that his wife was negligent about their home, often times failing to cook, wash and iron for him, and would permit dirt to accumulate in their home. He alleges that because of this, he was compelled to leave home, and has not resided with her since March 7. They were married July 17, 1911, according to the complaint.

COURT SUSTAINS THE OBJECTIONS

Reorganization Plan for American Paper Products Co., Will Not be Affected, Belief

SAME IN FEDERAL COURT

Carthage Plant Will be Thrown on Market at Public Auction, as Result of Ruling

Objections to the reorganization plan of the American Paper Products company of Carthage were sustained this morning in the circuit court by Judge Will M. Sparks, when two firms filed objections to the reorganization plans.

The two firms objecting to the plan of reorganization and sale of the plant were the D. Graff and Sons, incorporated, and the Lagerlaff Trading Company, incorporated.

A similar action was filed, and also the same ruling made in the matter before the United States Federal court of St. Louis.

It is believed that the reorganization plan will not be affected by the court action. The property at Carthage under the proposed reorganization plan, will be assumed by Chicago interests, and they have made an offer involving cash and preferred stock, which has met the approval of the stockholders and bond holders.

The petition objecting to the plan will throw the Carthage firm on the market at public sale, with the final outcome hinging on the sale. If the property will bring more at auction than the price submitted by the reorganization plan, then it will be sold in that manner. On the other hand if the auction sale fails to bring more than the reorganization plan, then the sale automatically reverts to the plan as agreed upon, so that in either case the plant is assured of being sold, and the objections amount only to a delay in the matter.

It is understood that the \$400,000 suit to foreclose and other actions pending against the factory will be dismissed as soon as the outcome of the sale is certain.

Several new complaints have been filed in court, most of them being minor actions on complaints and notes, with one suit being for a divorce.

L. Strauss and Company are plaintiffs in a complaint filed against Russell Wright, the action being on an account and with the demand for \$75 judgment.

The Taggart Baking Company has filed suit against Florence M. Bell and Charles G. Bell, the action being to collect on a note for \$175 and also seeking \$20 judgment on an account.

Another complaint on a note has been filed by Thomas Crim against Edward C. Bell, the action demanding \$135 judgment.

Oliver C. Brann has filed suit against Bert McIlwaine, with the action demanding judgment for \$200 on an account alleged to be past due.

BAIL HEARING ON TUESDAY PROBABLE

Judge Collins Says Plea of Stephenson Klenck and Gentry Will Likely be Heard Tomorrow

DELAYED BY MURDER TRIAL

Mother of Madge Oberholtzer Back in Indianapolis Ready to Give Her Testimony

(By United Press)

Indianapolis, Ind., April 27—Hearing of the bail plea of D. C. Stephenson, Earl Klenck and Earl Gentry, charged with murder for the death of Miss Madge Oberholtzer will start in criminal court tomorrow, it was indicated today. Judge Collins said that if the Lews Owens murder trial goes to the jury tonight, he will take up the Stephenson case tomorrow.

Hearing of the Stephenson case was postponed because of the delay in the Owens trial.

Mrs. George Oberholtzer, mother of the dead girl, is back in Indianapolis ready to testify at the hearing, after being in seclusion in a sanitarium at Martinsville where she went to recuperate from a nervous breakdown.

Eph Inman, chief defense attorney, will attack the evidence on which the indictment against the trio was returned and contend that the presumption of their guilt is not sufficient to warrant holding them without bail.

Prosecutor Remy and Charles Cox, special assistant prosecutor will bitterly contest every move of the defense to secure release of Stephenson and his two aids from the Marion county jail on bond.

Mrs. Matilda Oberholtzer, mother of the dead girl, will be called at the bail hearing to tell in public for the first time the story of her daughter's death.

Public sentiment in Irvington, the suburb where Miss Oberholtzer lived, crystallized yesterday with a mass meeting at which resolutions protesting against admitting the men to bail were adopted.

"We would remind other fathers and mothers that they have something at stake in this case and we demand protection in the form of swift and adequate justice," the resolutions said.

RUSHVILLE MEN BUY A STORE AT NEWCASTLE

E. R. Casady and P. T. Allen of This City and Clyde Barnhart of Lebanon Form Corporation

WILL SELL LEBANON STORE

E. R. Casady and P. T. Allen of this city and Clyde P. Barnhart of Lebanon have purchased the Chicago store in Newcastle and will take possession as soon as the invoice is completed.

These three men are in partnership in a Lebanon store, which is being managed by Mr. Barnhart, and which they expect to sell.

Mr. Barnhart, who was formerly the manager of the Boston store, in Newcastle, will take over the management of the Chicago store. The new owners will carry a line of dry goods and ladies ready-to-wear apparel and will add a line of carpets and rugs.

The store in Newcastle is one of the pioneer dry goods stores in that city, and the owner Joe A. Burgner is retiring after being in the business 29 years in Newcastle. Possession of the store will be given about May 11th. In commenting upon the business transaction, the Newcastle Courier says:

Mr. Burgner is one of the city's oldest merchants, having been in business here for over twenty-nine years. He has been in ill health for some time and will retire from active business. Before locating in Newcastle Mr. Burgner was in business in Cambridge City. His store here is an established institution and it was naturally with some hesitation that he sold out to retire from business.

Mr. and Mrs. Burgner will continue to operate the store during the next two weeks, after which the stock will be inventoried and the new owners will take possession.

EARTH TREMORS ARE NOTED HERE

Rushville People Were Unable to Explain Unusual Occurrence Sunday Night

MANY VERSIONS AT FIRST

Quake Lasting 35 Seconds Recorded on University of Chicago Seismograph at 10:06

Earth tremors which were noted throughout Indiana Sunday evening shortly after ten o'clock, were felt in Rushville, but people who noticed the unusual occurrence did not think of it in terms of an earthquake, until they read morning papers, which stated that earth tremors had been recorded in Indiana.

Many thought the noise they heard was caused by thunder and were astonished to find the heavens clear.

Another version was that an explosion not far distant was responsible and still other persons ascribed the shaking of their houses to the movement of trains nearby.

In some instances, Rushville residents thought that intruders were in the house and searched the premises for burglars.

Earth tremors lasting for 35 seconds were recorded on the seismograph of the University of Chicago at 10:06 p. m. Sunday, according to a Chicago dispatch received by the Daily Republican today. The quake was very slight, the dispatch said, and the deviation from the tremors were evidently confined to a district south of Chicago.

Slippage along fault plants was blamed for the quake by Prof. R. T. Chamberlain of the University of Chicago. The district touched by the quake, consists of limestone, sandstone, and shale, he said, and the various strata do not lie evenly, one on top of the other. The quake was caused by the settling of the earth.

Noted Throughout State

Indianapolis, Ind., April 27—Indianapolis and the greater part of Indiana were shaken by an earthquake of about thirty seconds duration at 10:06 o'clock last night.

Windows were rattled and dishes were jarred from shelves but little property damage was caused by the tremor.

J. M. Armington, weather bureau meteorologist, said it was impossible to tell the center of the disturbance because there is no seismograph in this state.

BACKS IN FRONT OF I. & C. CAR

Harry Woodward and Two Sons Injured at Connersville Sunday

Harry Woodward and two little sons, age two and four years, were injured Sunday morning at eight o'clock when Mr. Woodward backed his closed automobile on to the tracks of the I. & C. Traction Co., in Connersville at eight o'clock and due in Rushville at 8:32.

Mr. Woodward was only slightly bruised, but the little boys were cut and bruised and one of them was rendered unconscious. They are expected to recover, however.

Mr. Woodward was washing his car and backed out into the street, unaware of the approach of the interurban. The car was in charge of John Wilson, motorman, and Green Morris, conductor. The car was thirty minutes late reaching Rushville.

Composite Program for Five Weeks' Series, Covering Each Township, is Announced Today

NURSE, DOCTOR IN CHARGE

Final Meeting in Each Unit Will Include Motion Pictures Illustrating Lecture

A composite program for Rush county classes for women, which opened today under the auspices of the Indiana State board of health, division of infant and child hygiene, was announced by L. Evaline Renwick, R. N., who will give the demonstrations in the county.

Miss Renwick and N. Mande Arthur, M. D., a child hygiene staff physician, who will lecture, will spend five weeks in Rush county, making a complete circuit of the county each week.

All of the meetings will be held in the afternoon, with the exception of the fifth and closing one, which will be held in the evening because the lecture will be illustrated with pictures. The moving picture film, "Well Born," will be among the pictures shown and young people who come with their parents will be welcome.

The lectures are offered by the child hygiene division and are financed by the state appropriation for the work, which is matched by a federal appropriation under the maternity and infancy law.

GOOD ATTENDANCE AT LOCAL CHURCHES

Rushville Pastors Fill Pulpits and Ted Spray of Frankfort Preaches at Church

THEMES OF THE SERMONS:

Sunday Marks Close of Period Main Street Christian Congregation Has Been Without Pastor

Good attendance marked church services in Rushville Sunday, with pastor filling their regular appointments.

Ted Spray of Frankfort preached two sermons at the Main Street church, Sunday marking the close of the period during which the church has been without a pastor, following the resignation of the Rev. L. E. Brown last fall.

The Rev. B. F. Cato of Marshalltown, Iowa, who accepted a call to the Rushville church, will take up his duties here next Sunday and a pitch-in dinner will be held in the basement of the church at noon, to welcome the new pastor and his family.

The Rev. Gibson Wilson continued his series of popular Sunday evening sermons, preaching last night on "How To Sell Rushville."

The Rev. E. G. McKibben preached Sunday morning at the First United Presbyterian church on "The Christian's Crown" and in the evening on "The Fiery Serpent."

The Rev. Henry W. Hargett's sermon Sunday evening at St. Paul's Methodist Episcopal church on "The Passing of the Melting Pot" was illustrated with stereopticon views. His morning sermon was "What Christ is to me."

Sunday marked the close of the missionary year at the First Baptist church and an effort was made to fill the church's quota. The Rev. R. W. Sage preached on the theme, "The Privilege of Being a Christian." His evening subject was "The Permanent Christ."

First Baptist Church

In discussing "The Privilege of Being a Christian" at the morning worship of the First Baptist Church yesterday morning, the pastor said in substance, "The first privilege of being a Christian is the privilege of enjoying life. Do you enjoy your religion? If you do not, when your religion is not worth much. In fact, it is absolutely out of the question for you to enjoy life and at the same time be out of harmony with God. His laws are all made for our benefit, not for a burden to bind us down. To ignore them, therefore, is only to suffer. To keep them is to find the true road to happiness."

Another source of the Christians' enjoyments of life comes from the fact that he has learned the proper relation between the things of life and the real life itself. Although he realizes the value of material wealth, he realizes that it is only a matter of secondary importance. He is not willing to sacrifice the highest and best on the altar of materialism.

"The second privilege which comes from being a Christian, is the privilege of fellowship with the world's best people. I am well aware that some of the world's highest hypocrites have been enrolled as members of the church. Yet the fact is undisputed that the rank and file of the church is made up of the best people on earth. To unite with the church puts you immediately in contact with the best people in any community. Put this test: Would you care for your son to be habitually in the company of young ladies that noked fun at the church and never darkened its doors? Would you care for your daughter to keep company with a group of young men who ridiculed the idea of attending the services of the church?"

"The third privilege that comes with being a Christian is the privilege of world-citizenship. I like to live in Rushville better than any place I ever lived, but I would soon hate to think that I had to live in Rushville every day. This morning I am living not only in Rushville but I am living in Richmond, in Dublin, in Shanghai, in Tokio, in the Congo, in southern Russia, in New York and out on the plains of our great west. WHY SKINNY
FOLKS TAKE
COD LIVER OIL

Gain 5 Pounds in 30 Days or Get Your Money Back

Because it is richer in vitamins than any other food in the world. Doctors prescribe it for rickets and anaemia in children and for tuberculosis, malnutrition and convalescence in grown up people.

As a producer of weight—good healthy flesh—there is nothing in the world so good.

But it's nasty tasting, horrible smelling stuff that often upsets the stomach, so doctors now are ordering cod liver oil in tablet form.

You've got to take on weight when McCoy's Cod Liver Oil Compound Tablets are taken regularly—you simply can't help it.

It's so good that if it doesn't put on five pounds of good healthy flesh on any skinny man or woman in thirty days the McCoy Laboratories of New York authorize F. B. Johnson Co., and Pitman and Wilson and all druggists to return the price you paid for it.

Be sure to ask for McCoy's Cod Liver Oil Compound Tablets—sixty tablets—40 cents. One woman put on fifteen pounds in five weeks, and they are especially valuable to weak thin children.

What's wrong with this picture?

OUR young lady is writing her social correspondence on Corona. Is this good etiquette? Lillian Eichler, author of the "Book of Etiquette," after telling how she wrote this famous book entirely with Corona, says: "My 'Book of Etiquette' encourages the use of the typewriter for social correspondence."

It is a breach of etiquette to allow letters to go unanswered for weeks, but a busy man or woman finds plenty of excuses for postponing the tiresome task. With Corona at your elbow, letter-writing acquires a new interest, and that is why many people of social prominence use Corona for all their correspondence. Coronatyping is easier, faster and more legible than handwriting.

Corona Four costs only \$60. Easy terms if desired. Call or phone for demonstration.

Collections on the spring installment of taxes up to the time the county treasurer's office opened for business this morning amounted to \$210,082.89, Saturday's receipts at the office being \$11,365.19.

With only one week left for paying taxes without being delinquent, there remains approximately \$274,500 on the books to be paid. Collections will have to average almost \$40,000 a day, if the taxes are all paid.

The county treasurer, Howard Clawson, and Donald Mull, deputy, are being assisted this week by Miss Lucile Priest and Homer Cole.

M.C. GRAVEL CARS JUMP TRACK

Accident in Morgan Street Near Station Delays Traffic

The rear tracks of a big gravel car and the front trucks of the one behind it, jumped the tracks on the Indianapolis and Cincinnati traction line in North Morgan street about eleven o'clock this morning, at the point where the double tracks begin, near the traction station.

Three cars, each loaded with forty yards of gravel, were being pulled by a freight car, when the accident happened, and traffic on the line was held up while the cars were put back on the tracks.

Each car was loaded with 132,000 pounds of gravel and the immense weight, together with the weight of the heavy cars, caused the wheels to cut large grooves in the paved street.

TRAGIC SCENE AS JAPANESE FREIGHTER SINKS

In this photo, the greatest picture ever made of a sea tragedy, is shown, as seen from the decks of the S. S. Homeric, the last throes of the Japanese freighter, Raifuku Maru, as she was engulfed by the raging seas off Nova Scotia, carrying to the depths with her, her officers and crew. Passengers and crew of the Homeric lined the rails helplessly, the women with tears streaming down their cheeks, as they watched the doomed men on the sinking ship wave their arms in frantic appeal for the aid that could not be given.

GOOD ATTENDANCE AT LOCAL CHURCHES

Continued from Page One

Well for quite a little while I have been giving to the spread of the gospel of Christ, and the money has been going out to work in these fields. No, the Christian is never confined to his own community, his influence is indeed world-wide, and he is poor indeed if he fails to take advantage of being truly a citizen of the whole world. The privilege of being a Christian is the privilege of reaching your highest possibilities. The challenge of it I bring to you anew this morning."

First United Presbyterian

The Rev. E. G. McKibben preached at both services, morning and evening, at the First United Presbyterian church Sunday. The text in the morning was Rev. 2:10, "Be thou faithful until death and I will give thee the crown of life." He said in part: "A single command to do one thing and a promise of recompense is the burden of this text. It is short so as to be easily remembered. It is clear so as to be understood readily. It is reasonable so as to require no argument. All Christian duties can be listed under the first part and all future rewards under the other. It is a challenge, by the Lord to all Christians and at all times."

"The thing required is faithfulness. The word means full of faith, characterized by faith, controlled by faith. Faithfulness always grows out of faith. Faith is a fountain and out of it issues a faithful life. Faith is soil out of which grows the strong oak and the graceful palm of a faithfulness. Faith is unbelief in God's word, and trust in His promises, and confidence in Jesus Christ and obedience. The resultant of all these forces is faithfulness. Faith and faithfulness are always joined together. Faithfulness implies resistance to Satan's allurement, Temptation, if it is real, always comes in an attractive form. Satan is disguised as an angel of light. The wolf dons sheep's clothing. The serpent that tempted Eve was unright and wise and subtle above all the

beasts of the field. When Satan tempted Christ, he showed him all the kingdoms of the world and the glory of them. 'All these,' said he, 'will I give thee if you will worship me.' This was the highest bid ever made for a soul and Our Lord resisted it. Faithfulness implies constancy. It is not big things, and the trials that test the mettle of the Christian soldier. It is the pretty annoyances and the little trials that dishearten and tempt us to lapse into unfaithfulness."

"Then he has set a limit to the period of faithfulness required. It is to be until death. Death is set as the limit of time and also of endurance. Faithful men may be called on to suffer loss for the faith of the gospel. They have forfeited their property and given up their liberty, and suffered bodily pain, and social ostracism, and exile rather than give up their faith. But the limit is death. Our Lord was obedient even to the death of the cross."

"The reward of faithfulness is a crown. 'I will give thee the crown of life.' This is not the crown of life. And the crown of life is not eternal life conferred at death. Eternal life is given at the time we enter the kingdom. 'I give unto them eternal life.' It is not enrollment among the saved. The Bible says that the name of God's saved ones 'are written in the Lamb's book of life before the foundation of the world.' It is not the gift of the Holy Spirit for He was given at Pentecost and is promised to all who obey Him. But the crown spoken of seems to be the entrance into heaven, the welcome that awaits, access to the tree of life, enthronement along with Christ and all the joys and pleasures and ecstatic experiences and the fellowship with angels and saved men forever. This crown is to be given by God's Son, in the presence of all created, rational beings, on that day when time ends and eternity begins."

"Such a text as this ought to encourage enlistment in the Lord's service. All other programs will terminate in a brief space of time. This one is age long and eternity deep. Here is offered life which is life indeed and the crown of life at the end. It also offers compelling inducements to the Christian to be faithful. 'Be thou faithful unto death and I will give thee a crown of life.'"

In the evening the sermon was based on John 3:14, 15. 'As Moses lifted up the serpent in the wilderness, even so must the Son of Man be lifted up.' The brazen serpent placed on a pole in the camp was a type Christ lifted up on the cross on Calvary. The bitten Israelite was cured by looking on the serpent. Those bitten by sin are saved by the look of faith directed to the great antitype of the serpent, Jesus Christ pointed out.

SHEPHERD'S TRIAL IS SET FOR HEARING MAY 18

Defendant, Accompanied by Wife, Appears at Ease When he Appears in Court Today

DEFENSE WILL BE READY

(By United Press)

Chicago, April 27—Date of trial of William D. Shepherd on the charge that he murdered his wealthy ward, Billy McClintock, was set today for May 18. Judge T. J. Lynch, in designating the date, told defense Attorney William Scott Stewart he would grant an extension of time if the defense needed it.

Stewart said he would be ready, but declared he felt it would be impossible to secure "a fair minded jury."

"I'll give you eight weeks to select your jury if necessary," Judge Lynch said. "There are a lot of people who don't read the papers."

Mrs. Julie Shepherd, wife of the prisoner, was in court for the first time since Shepherd's arrest. Shepherd appeared quite at ease.

EARTH TREMORS ARE NOTED HERE

Continued from Page One

Scores of persons living in the north and east sections of the city felt their houses rocked by the tremor and called newspaper offices and police headquarters to learn if there had been a violent explosion in the state.

The intensity of the quake was apparently less in the south and west sections of Indianapolis.

In large apartment houses on the north side furniture was moved about by the quake and flower vases were toppled over.

Radio fans listening in on Sunday night programs reported a sudden interruption at the moment of the tremor.

Gavin Payne, who had been through earthquakes in Jamaica and Porto Rico, said the quake was an east to west movement of the earth that lasted a little less than half a minute.

Think of the Harvest—What-
soever a man soweth, that shall
he also reap. Galatians 6:7
Prayer:—Dear Lord, we
thank thee for this truth. May
we sow seed that assures us a
good harvest.

Outdoor Good Manners

From the time they are able to
comprehend anything, children are
taught that they must have "good
manners." They are threatened and
warned and cajoled in behaving
when "company" comes and to act
like they weren't little savages when
they go to call on friends.

"Good manners" have always
been regarded as one of our best
known "indoor sports." But this is
a changing world and now we find
that "manners" are classified. There
is the "indoor" variety and the
"outdoor" variety. And some of the
groomings are lacking in the "out-
door" quality.

The careless automobile tourist,
who has left his mark from Harlem
to San Francisco, has made neces-
sary some new precepts on the
subject of "good manners."

The thoughtless camper who for-
gets to put out his fire and leaves
behind paper plates, tin cans and
the remains of his lunch is the hor-
rible example of "bad manners"
and a type that must be swatted in
order to keep tourists as a class
in good standing.

The American Automobile asso-
ciation estimates that six million
people will heed the call of the road
this summer. If one-sixth of them
are careless, an immense amount of
damage will be done. Beauty spots
will be defiled, property destroyed
and the way made rough for tour-
ists who have good "outdoor man-
ners."

Nothing is more disheartening
than to find some picturesque spot
among the trees left by automobile
travelers and picnickers littered with
refuse.

The rights of property owners
in the country must be respected as
religiously as they are in town and
city. This children can be taught.
Some of their elders may be too
hard crusted to admit of teaching.

But the coming generation, at
least, ought to grow up with the
idea that the abuse of outdoor hos-
pitality of parks and secluded spots
in the country is as much a breach
of good manners as to mistreat a
home where one has been enter-
tained.

Summer Recreation

What can we do with the children
during the vacation period? This is
a problem that confronts most par-
ents and a happy answer to it is
being sought.

It's not so great in the country
because there is not so much danger
that children will get into mischief
on account of idleness. The farm
offers plenty of work for strong
young muscles, and near to nature
is it, the tasks are health pro-
moting, body building work.

But in the town and city, anxious
parents are constantly seeking ways
and means of keeping the active
youngsters occupied. They are not
dumb driven cattle. They like to be
busy doing something, and if a meth-
od can be found to turn their en-
ergy into useful channels, they will
be benefited and the temptation to
fall into evil ways will be removed.

With a scarcity of work for
young hands, the best substitute is
a playground center where a part of
the vacation time can be devoted to
organized play.

Many communities have recog-
nized their responsibility and have
provided playgrounds, as well as a
director.

A few years ago Rushville had a
playgrounds supervisor who kept
the boys and girls engaged a good
part to the time during the vacation.

The program was not continued,
but it should have been. The play-
ground still remains in Memorial
park, and it is well equipped with
apparatus. Boys and girls will find
many hours of pleasure there this
summer after the chores at home
are done.

But the point is, that the chores
should be done first, and then the
play can be entered into and en-
joyed with greater relish.

Stewart's Washington Letter

BY CHARLES F. STEWART

NEA Service Writer

WASHINGTON—Official Wash-
ington is pleased with Je-
soph Caillaux's appointment
to be finance minister of France.

That is to say, most of official
Washington. That small part of official Wash-
ington which knows a good deal
about France says, "It makes little
difference to us who the finance
minister of France is." Caillaux
is recognized as one of the world's
great financiers. He favors some
definite French war debt arrange-

ment. But an "arrangement"
won't mean that the debt will be
paid.

The most it can possibly mean is
French recognition that there is a
debt. It will be just a "gesture,"
as diplomats say. Only super-
optimists think America really
will get even any of the interest.

BESIDES, it's doubtful if Cal-
laux will last long enough to
make so much as an "ar-
rangement." He favors re-es-
tablishing France's foreign credit by
taxing her own people up to the
hilt. "That's the right remedy,"
approved Chairman Borah of the
Senate foreign relations commit-
tee, when Caillaux's appointment
was announced.

Yes, but it's a remedy Dr. Cal-
laux can do no more than pre-
scribe. France will have to take it
for herself. Will she? "Tut, tut!"
say those who know France best.
"What a question!"

IF the chamber of deputies in
Paris turns down the Caillaux
taxation plan, out of office he'll
go, and probably the whole cabi-
net with him. That this will be
pretty quick is one of the safest
of bets.

Rainbow Frock Is Here

THE RAINBOW FROCK is the name given to this Paris importation of silk with waves in rainbow colorings. A band of black finishes the skirt, and full side panels give the proper swing. The bodice is closefitting and sleeveless.

CLINKERS

Constipation is like the clinkers in a stove. When the stove is choked with clinkers it gives only one-half the heat it can with fresh, clean coal. For the same reason when your intestines are choked with waste matter, you are physically and mentally only one-half efficient. Waste matter in the body that is not thrown off regularly, poisons the system and makes it doubly easy for you to contract disease and doubly hard for you to get rid of disease until the waste is removed. Constipation tends to produce piles, appendicitis and many other ills. That is why a physician—the very first thing—sees that you are cleaned out of waste matter when he is called to minister to your needs. We have a wonderful laxative for chronic constipation—

Why Not Enjoy Life?

MRS. PEARL ABRAMS

"When I was a young woman I
was in a critical condition," said Mrs.
Pearl Abrams of 513 N. Noble St.,
Indianapolis, Ind. "I grew very
weak and our family thought I would
never get well. Nothing seemed to
help me. I suffered so with feminine
trouble. Finally a lady advised me
to take Dr. Pierce's Favorite Pres-
cription and three bottles of it per-
manently relieved me and I have had
comparatively no sickness since."
Start at once with this "Prescrip-
tion" and see how quickly you'll pick
up—feel stronger and better. Write

VAST HARBOR PLANNED IN CALUMET DISTRICT

Gary City Council Grants Permis-
sion to Firm to Build Inlet Mile
Long For Cement

TO BE LARGEST IN THE WORLD

Gary, Ind., April 27—Early con-
struction of another industrial har-
bor within the city limits of Gary
has been assured today following
action of the city council in grant-
ing permission to the Universal
Portland Cement company to build
a harbor at its Buffington plant in
the western part of the city at a
cost of \$3,000,000.

Plans for the harbor came with
an announcement that another ce-
ment mill would be added to make
the Buffington plant the largest ce-
ment manufacturing plant in the
world.

The harbor will be nearly one mile
long and 300 feet wide with a depth
sufficient to float the largest lake
vessels. It will be used for vessels
carrying limestone to the large ce-
ment plant and transporting the
plant's products to the cities on the
Great Lakes and eventually to all
parts of the world.

"Something Just as Good"

A woman in New Mexico received
the following letter from a Philadel-
phia firm: "Dear Madam: We are
sorry to state that we cannot furnish
Pepps Diary about which you in-
quired, but we have Line-a-Day books
from \$2.50 to \$6 each. If you would
like one of them, we will be glad to
attend to your order as soon as it
reaches here."

Carnivorous Plants

Animal-eating plants are more com-
mon than one would suppose, since
there are five hundred species listed
in botanics. These carnivorous plants
imprison their prey with their leaves
and absorb the victims.

Strength—brings joy to you and
your friends.

EVERY man, woman and child wants to have strength and correct weight. It means the joy of living. To be minus strength and underweight often proves low fighting-power in the body. It often means you are minus nerve-power, minus red cells in your blood, minus health, minus vitality. It is serious to be minus, but the moment you increase the number of your red-blood-cells, you begin to become plus. That's why S.S.S., since 1826, has meant to thousands of underweight men and women a plus in their strength. Your body fills to the point of power, your flesh becomes firmer, the age lines that come from thinness disappear. You look younger, firmer, happier, and you feel it, too, all over your body.

More red-blood-cells! S.S.S. aids Nature in building them by the million! There are no unproven theories about S.S.S., the scientific results of each of its purely vegetable medicinal ingredients are admitted by authorities. Begin taking S.S.S. today. It will give you more energy, vitality and vigor and a more up and going appearance.

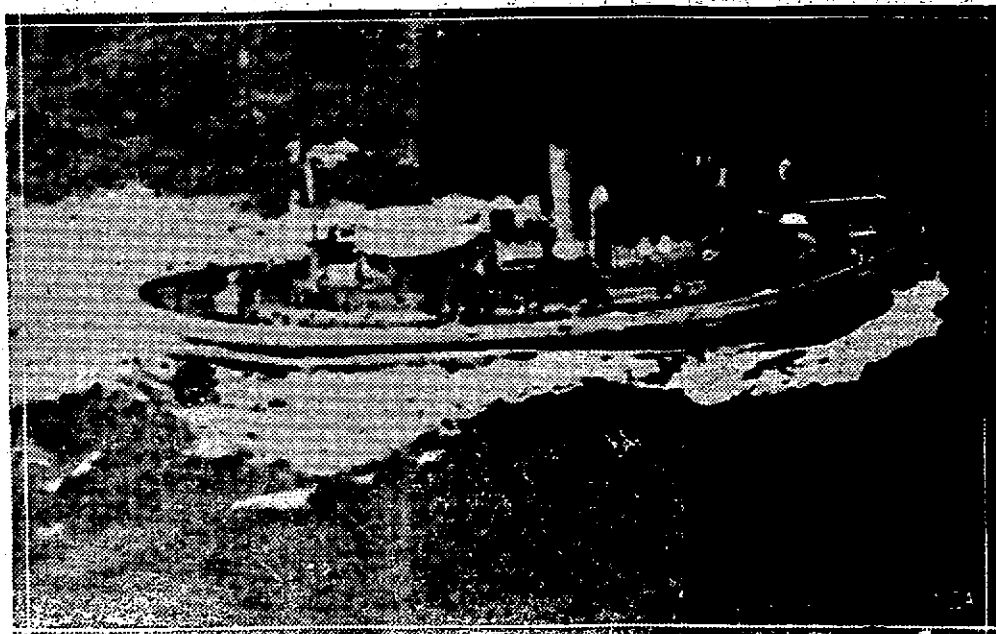

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

DIRIGIBLE SPIES ON RUM FLEET

Here is a picture taken as the giant dirigible Los Angeles went scouting for the "rum fleet" off the Jersey coast and in the vicinity of Fire Island. Pictures of the "fleet" were taken at the request of Secretary of Navy Wilbur, who said it would give the dirigible crew good scouting practice and that prohibition agents and coast guard might make use of the data in helping to snare wily rum-runners. The shadow in the picture is cast by the dirigible.

Survey in State by National Tuberculosis Association**HIGHEST IN MARION COUNTY**Rate There is 107 For Each 100,000
Population and in Rush County it

Indianapolis April 27—One of the most exhaustive reports ever made on a single subject in Indiana is contained in a survey recently completed for this state by Dr. H. R. Edwards, medical field secretary of the National Tuberculosis association.

The report, covering several hundred closely typewritten pages and illustrative charts was filed today with Dr. William F. King, secretary of the state board of health.

The Indiana State Tuberculosis Association, sensing the need for an accurate and comprehensive study of the problem in the state in 1921, requested the national association to make the survey. The state board of health joined in the invitation.

Although the tuberculosis death rate during the past ten years covered by the survey was higher in other parts of the state the tuberculosis situation in Indianapolis and Marion county was more serious because of the larger population, the report stated.

The death rate exceeded 107 for every 100,000 population.

Many counties south of Marion had a death rate higher than 107 during the period but the only county north of Marion that had a higher death rate was St. Joseph.

Death rates in other counties were Lake county, 75; Porter, 41; Laporte, 78; St. Joseph, 115; Elkhart, 67; DeKalb, 73; Noble 57; Allen, 89; Whitley, 52; Kosciusko, 56; Marshall, 63; Wabash, 58; Wells, 70; Adams, 67; Jay, 86; Blackford, 64; Clinton, 77; Delaware, 97; Wayne, 86; Henry, 98; Fayette, 113; Rush, 89; Boone, 106; Putnam, 103; Montgomery, 83; Fountain, 79; Vermillion, 74; Vigo, 81; Clay, 86; Morgan, 104; Shelbyville, 115; Decatur, 119; Monroe, 104; Greene, 103; Sullivan, 87; Knox, 93; Daviess, 109; Gibson, 95; Vanderburgh, 142, and Fountain, 79.

Jefferson county with the rate of

189 had the highest and Benton with 34 had the lowest.

Considerable space in the report is devoted to conditions at the state tuberculosis sanitarium at Rockville and recommendations for betterments included.

Creation of a modern fireproof infirmary with seventy-five to one hundred beds.

Complete separation of the business and medical administrations.

Appointment of a business manager, Dr. Carter, president general superintendent being suggested.

Complete remodeling of plumbing and overhauling of adult pavilions. More help in the medical department.

The report made several recommendations to the state board in carrying out its health program:

Development of full-time city and county health departments; cooperation of the medical profession in reporting tuberculosis cases; formation of a tuberculosis division of the state board of health.

Some of the things recommended in the report have been accomplished and other resuppose an ideal state depending to a great extent on the action of the legislature, Dr. King said in commenting on the report.

MAINTAIN WATER & LIGHT PLANT—I promise to maintain the Water and Light Plant as a City owned plant, with rates as low as is consistent with the service given and the proper operation of the plant, and to fight any attempt of any person to do away with the plant as a city plant and sell it to private individuals.

TAXES—I promise that I will personally investigate each and every proposal which would increase taxes, and oppose those that are not absolutely necessary for the benefit of the city, and to see that taxes collected, are properly expended, and that the citizens of Rushville receive full value for every dollar of their money so expended and to see that taxes are, at all times, kept to the lowest possible limit.
